VOLUME CONTENTS

Volume 4, Number 1 **1991**

E. G. Kelly	1	The significance of by-pass in mineral separators
R. E. McIvor and **J. A. Finch**	9	A guide to interfacing of plant grinding and flotation operations
M. W. Chudacek and **M. A. Fichera**	25	The relationship between the test-tube flotability test and batch cell flotation
B. J. Huls, C. D. Lachance and **G. S. Dobby**	37	Bubble generation assessment for an industrial flotation column
P. Somasundaran, C. E. Roberts and **R. Ramesh**	43	Effects of oxidizing methods on the flotation of coal
C. C. Mwaba	49	Surfactant-enhanced dewatering of graphite and hematite suspensions
J. R. Siemon, E. Kowalczyk, D. P. Fitzgibbons and **W. Baguley**	63	Peak bed temperature prediction of a lead/zinc sinter plant
D. Sheila, C. Sankaran and **P. R. Khangaonkar**	79	Studies on the extraction of magnesia from low grade magnesites by carbon dioxide pressure leaching of hydrated magnesia
		Book Review
T. J. Veasey	89	Recycling of Metalliferous Materials
	91	Calendar of International Conferences, Symposia, Courses and Meetings of Interest
	99	Recent Mineral Processing Publications
	i	New Patents

Volume 4, Number 2 **1991**

M. A. Reuter, J. S. J. van Deventer and **I. W. van der Merwe**	103	The application of knowledge-based systems to the simulation of gold extraction processes
C. J. Martin, R. E. McIvor, J. A. Finch and **S. R. Rao**	121	Review of the effect of grinding media on flotation of sulphide minerals

J. Rubio and **J. A. Solari** 133 Lamellar flotation of a lead–zinc sulphide ore

J. L. Scott and **R. W. Smith** 141 Diamine flotation of quartz

G. Siva Reddy,
C. Konda Reddy,
D. M. R. Sekhar,
K. Ravindranath
and **M. R. Chulet** 151 Effect of formaldehyde and nickel sulphate solutions on the activation of cyanide-depressed sphalerite

J. Drzymala,
R. Markuszewski
and **T. D. Wheelock** 161 Oil agglomeration of sulfurized pyrite

Technical Notes

Z. Sadowski 173 The effect of iron ions on the oil agglomeration of oxidized coal

S. Özdemir and **İ. Girgin** 179 Decomposition of scheelite in acid–alcohol solutions

Book Reviews

185 Mechanical Activation of Minerals, by K. Tkácová

185 Control '90—Mineral and Metallurgical Processing, edited by R. K. Rajamani and J. A. Herbst

186 Advances in Coal and Mineral Processing using Flotation, edited by S. Chander and R. R. Klimpel

186 Minerals, Materials and Industry

Conference Reports

R. A. Williams 187 International Symposium on Colloid and Surfacing Engineering

R. W. Smith 188 GOLDTech 4

M. Z. Dogan 189 III International Mineral Processing Symposium

J. S. J. van Deventer 190 International Symposium on Gravity Separation Technology

K. A. Lewis 191 XXII. International Symposium APCOM

193 Calendar of International Conferences, Symposia, Courses and Meetings of Interest

201 Recent Mineral Processing Publications

i New Patents

Volume 4, Number 3/4 1991

Special Issue

GRAVITY SEPARATION TECHNOLOGY

Proceedings of the International Symposium held at the Camborne School of Mines, Cornwall, England 12–14 September 1990

P. Hackett	211	Opening Address
J. F. Turner	213	Gravity concentration, past, present and future
M. W. A. Burton, G. Ferrara, G. Machiavelli, M. M. Porter and **H. J. Ruff**	225	The economic impact of modern dense medium systems
H. D. Zughbi, M. P. Schwarz, W. J. Turner and **W. Hutton**	245	Numerical and experimental investigations of wear in heavy medium cyclones
C. J. Restarick and **Z. Krnic**	263	The effect of underflow/overflow ratio on dense medium cyclone operation
J. K. Cocks	271	Development of a range of hydrocyclones by practice and experience
C. J. Restarick	279	Adjustable onstream classification using a two stage cylinder-cyclone
E. J. Roldán Villasana and **R. A. Williams**	289	Calculation of a steady state mass balance for complex hydrocyclone networks
K. R. Anthony, J. S. J. van Deventer and **M. A. Reuter**	311	Steady-state simulation and optimization of gravity separation circuits by use of linear programming and expert systems
T. J. Napier-Munn	329	Modelling and simulating dense medium separation processes—a progress report
M. Pearl, K. A. Lewis and **P. Tucker**	347	A mathematical model of the Duplex concentrator
P. Tucker, K. A. Lewis and **P. Wood**	355	Computer optimisation of a shaking table
R. J. Manser, R. W. Barley and **B. A. Wills**	369	The shaking table concentrator—the influence of operating conditions and table parameters on mineral separation—the development of a mathematical model for normal operating conditions

ME 4:12-K

A. Wells	383	Some experiences in the design and optimisation of fine gravity concentration circuits
J. Wells and **C. Patel**	399	Contemporary practices in gravity recovery installations in the Canadian gold mining industry
D. J. Miller	411	Design and operating experience with the Goldsworthy Mining Limited BATAC jig and spiral separator iron ore beneficiation plant
P. O. J. Davies, R. H. Goodman and **J. A. Deschamps**	437	Recent developments in spiral design, construction and application
A. B. Holland-Batt and **P. N. Holtham**	457	Particle and fluid motion on spiral separators
S. Bilgen and **B. A. Wills**	483	Shear flocculation—a review
B. S. K. Chan, R. H. Mozley and **G. J. C. Childs**	489	Extended trials with the high tonnage multi-gravity separator
C. J. Restarick and **P. Gottlieb**	497	QEM*SEM image analysis of cyclosizer classification
D. Rhodes and **N. J. Miles**	503	Fine coal characterization
J. Abbott and **N. J. Miles**	511	Smoothing and interpolation of float/sink data for coals
	525	List of Participants
	531	Calendar of International Conferences, Symposia, Courses and Meetings of Interest
	I	New Patents
	V	Information for Contributors

Volume 4, Number 5/6 **1991**

W. C. Hirt, D. A. Rice and **M. B. Shirts**	535	Flotation of cobalt-rich ferromanganese crust from the Pacific Ocean
Manqiu Xu and **J. A. Finch**	553	The axial dispersion model in flotation column studies
K. Zhong, T. V. Vasudevan and **P. Somasundaran**	563	Beneficiation of a high dolomitic phosphate ore: a bench scale optimization study

S. I. Abu-Eishah, M. Muthaker and **N. Touqan** 573 A new technique for the beneficiation of low grade carbonate-rich phosphate rocks by digestion with dilute acetic acid solutions: pilot plant testing results

S. Subramanian and **K. A. Natarajan** 587 Flocculation, filtration and selective flocculation studies on haematite ore fines using starch

Y. Zeng and **E. Forssberg** 599 Effects of mill feed size on product fineness and energy consumption in coarse grinding

R. X. Rong and **G. J. Lyman** 611 Modelling jig bed stratification in a pilot scale Baum jig

Book Reviews

R. A. Williams 625 Advances in Fine Particle Processing, *edited by J. Hanna and Y. A. Attia*

K. Atkinson 626 Annotated Bibliographies of Mineral Deposits in Europe, *by J. D. Ridge*

Conference Reports

J. E. Dutrizac 629 International Symposium on Electrometallurgical Plant Practice

M. Suzuki 630 11th International Coal Preparation Congress

631 Calendar of International Conferences, Symposia, Courses and Meetings of Interest

635 Recent Mineral Processing Publications

i New Patents

Volume 4, Numbers 7–11 **1991**

SPECIAL ISSUE

MINERALS ENGINEERING '91
Proceedings of the International Conference held at the Marina Mandarin Hotel, Singapore, 20–22 February 1991

D. G. Osborne 639 Foreword

Technical Sessions 1–2: Computer Control and Simulation; Comminution and Liberation

B. A. Wills and **K. Atkinson**	643	The development of minerals engineering in the 20th century
D. J. McKee	653	Automatic flotation control—a review of 20 years of effort
J. S. J. van Deventer and **V. E. Ross**	667	The dynamic simulation of carbon-in-pulp systems: a review of recent developments
J. J. Cilliers and **A. L. Hinde**	683	An improved hydrocyclone model for backfill preparation
R. R. M. Johnston and **K. Simic**	695	Improving thickener operation and control by means of a validated model
J. D. Salter	707	Mill control using particle size monitors
M. P. Schwarz	717	Flow simulation in minerals engineering
A. W. Stradling	733	Development of a mathematical model of a crossbelt magnetic separator
T. J. Veasey and **B. A. Wills**	747	Review of methods of improving mineral liberation
D. N. Sutherland and **P. Gottlieb**	753	Application of automated quantitative mineralogy in mineral processing
I. J. Corrans and **J. E. Angove**	763	Ultra fine milling for the recovery of refractory gold

Technical Sessions 3–6: Concentration; Flotation Fundamentals; Flotation Technology; Ferrous Metallurgy

J. D. Salter and **N. P. G. Wyatt**	779	Sorting in the minerals industry: past, present and future
R. Sivamohan and **E. Forssberg**	797	Electronic sorting and other preconcentration methods
J. H. P. Watson and **Z. Li**	815	A study on mechanical entrapment in HGMS and vibration HGMS
H.-D. Wasmuth and **K.-H. Unkelbach**	825	Recent developments in magnetic separation of feebly magnetic minerals
R. D. Crozier	839	Sulphide collector mineral bonding and the mechanism of flotation
J. Ralston	859	E_h and its consequences in sulphide mineral flotation
K. Hanumantha Rao and **K. S. E. Forssberg**	879	Mechanism of fatty acid adsorption in salt-type mineral flotation

R. St. C. Smart	891	Surface layers in base metal sulphide flotation
G. S. Dobby and **J. A. Finch**	911	Column flotation: a selected review, part II
R. Clayton, G. J. Jameson and **E. V. Manlapig**	925	The development and application of the Jameson cell
V. R. Degner and **P. L. Person**	935	LEEDS Column performance evaluation
C. M. Goodall and **C. T. O'Connor**	951	Pulp–froth interactions in a laboratory column flotation cell
V. E. Ross	959	The behaviour of particles in flotation froths
T. Wakamatsu and **Y. Numata**	975	Flotation of graphite
J. K. Wright, I. F. Taylor and **D. K. Philp**	983	A review of progress of the development of new ironmaking technologies
R. L. Nyirenda	1003	The processing of steelmaking flue-dust: a review

Technical Sessions 7–10: Gold Processing; Environmental; Hydro and Biometallurgy; Miscellaneous

K. S. Fraser, R. H. Walton and **J. A. Wells**	1029	Processing of refractory gold ores
P. M. Afenya	1043	Treatment of carbonaceous refractory gold ores
C. T. O'Connor and **R. C. Dunne**	1057	The practice of pyrite flotation in South Africa and Australia
A. Arrowsmith and **N. Ashton**	1071	Air pollution control from the mineral processing industries
L. M. Amaratunga	1081	Experimental evaluation of a novel concept of utilization and disposal of fine mill tailings as aggregates by agglomeration
P. B. Mitchell and **K. Atkinson**	1091	The novel use of ion exchange materials as an aid to reclaiming derelict mining land
S. Venkatachalam	1115	Treatment of chalcopyrite concentrates by hydrometallurgical techniques
R. W. Smith, M. Misra and **J. Dubel**	1127	Mineral bioprocessing and the future
P. A. Spencer, J. R. Budden and **M. K. Rhodes**	1143	Bacterial oxidation technology—a viable process for refractory gold ores and base metals recovery
R. C. M. van der Spuy and **V. E. Ross**	1153	The recovery of coarse minerals by agglomeration and flotation

D. G. Osborne and **L. J. Dove** 1167 Future trend towards better quality export steam coals

1185 Minerals Engineering '91 Registered Delegates

1189 Calendar of International Conferences, Symposia, Courses and Meetings of Interest

1199 Recent Mineral Processing Publications

1203 New Patents

I Aims and Scope

Volume 4, Number 12 **1991**

E. G. Kelly and **G. K. N. S. Subasinghe** 1207 Gravity performance curves: a re-examination

M. G. Gorman and **R. W. Smith** 1219 Amine flotation of fine quartz and glass beads

A. J. Thornton 1227 Cautious adaptive control of an industrial flotation circuit

R. A. Bearman, R. W. Barley and **A. Hitchcock** 1243 Prediction of power consumption and product size in cone crushing

M. S. Prasad, R. Mensah-Biney and **R. S. Pizarro** 1257 Modern trends in gold processing—overview

W. Stange 1279 The optimization of the CIP process using mathematical and economic models

C. Komnitsas and **F. D. Pooley** 1297 Optimization of the bacterial oxidation of an arsenical gold sulphide concentrate from Olympias, Greece

J. McLaughlin and **G. E. Agar** 1305 Development and application of a first order rate equation for modelling the dissolution of gold in cyanide solution

R. H. Eric, A. A. Hejja and **W. Stange** 1315 Liquidus temperature and electrical conductivities of synthetic ferromanganese slags

Technical Note

E. G. Kelly and **C. E. Carlson** 1333 Two flotation models: resolution of a conflict

1339 Calender of International Conferences, Symposia, Courses and Meetings of Interest

1349 Recent Mineral Processing Publications

1351 New Patents
